## SUMMARY

Frontend Developer with hands-on experience building responsive, scalable web applications using PHP, JavaScript, and Bootstrap. Experienced in developing CRM systems, fleet management dashboards, and design-to-code conversions with REST API integration and MySQL-backed data. Currently expanding into React.js and MongoDB. Passionate about writing clean, maintainable code and delivering high-performance, user-friendly interfaces.

## TECHNICAL SKILLS

- Languages: HTML5, CSS3, JavaScript (ES6+), PHP
- Frontend: Bootstrap, Responsive Web Design, Mobile-first design, cross-browser compatibility
- Backend & APIs: REST APIs, Fetch API
- Database: MySQL, MongoDB (basic knowledge)
- Frameworks (currently learning): React.js, Next.js
- Tools: Git, GitHub, VS Code, XAMPP
- Cloud Services: Google Cloud Platforms

## WORK EXPERIENCE

### Frontend Developer — Zelektra

May 2025 – Present

- Developed and maintained responsive web applications using HTML, CSS, JavaScript, PHP, and Bootstrap.
- Collaborated with backend developers to integrate REST APIs and worked with MySQL for data-driven features.
- Improved application performance through optimization techniques and efficient coding practices.
- Ensured cross-browser compatibility and mobile responsiveness across all deliverables.
- Used Git/GitHub for version control and team collaboration.
- Contributed to clean UI/UX implementation and collaborated across teams to deliver client projects on time, taking on multiple roles within each project.

## PROJECTS

### RideLane CRM — Frontend Developer

- Developed responsive CRM dashboard pages
- Integrated REST APIs using Fetch API
- Built Lead Management module
- Implemented Role-based Access Control
- Developed Driver Broadcast functionality
- Built Ride Cost Calculator
- Integrated Google Maps Autocomplete

### TonTrackr Admin Dashboard — Frontend Developer

Tech Stack: PHP, JavaScript, Fetch API, HTML, CSS, MySQL

- Built a fleet management dashboard covering Drivers, Vehicles, Jobs, and Tickets modules.
- Connected the frontend with backend APIs and implemented reusable UI components.
- Worked with DataTables for data display and managed application authentication.

### Beauty Web — Frontend Developer

Tech Stack: PHP, HTML, CSS, JavaScript, Bootstrap

- Converted Figma designs into responsive, pixel-accurate web pages.
- Built Order History and Saved Items pages, plus an SMS Authentication UI.
- Developed Terms & Privacy, Payment Failure, and Trial Confirmation pages.

## EDUCATION

### ACCP PRIME 2.0 – Software Engineering — Aptech Computer Education, North Karachi

Jan 2024 – Present

- Learning React.js and MongoDB, alongside HTML, CSS, JavaScript, and Laravel; built multiple academic projects.
- Developed strong problem-solving and debugging skills.

### Hifz-ul-Quran — Islami Studies, Babul Islam, Karachi

### Intermediate (Pre-Engineering) — Public School And College 11C-1, North Karachi

### Roshi Computer Institute — CIT (Information Technology)

- Gained hands-on experience in MS Office, HTML, and graphic tools; built a sample website as a final project.
